

MONTI RAJPUT

Full Stack Developer

mr-rajput7082@gmail.com | +91 8607958796 | [Portfolio](#) | [LinkedIn](#) | [GitHub](#)

TECHNICAL SKILLS

Programming Languages: JavaScript, Python, C++, Java

Frontend: HTML5, CSS3, React.js, Responsive Web Development, Component-Based Architecture, Material UI (MUI), Bootstrap, Tailwind CSS

Backend & APIs: Node.js, Express.js, NestJS, RESTful API Design & Integration

Databases: MySQL, MongoDB, PostgreSQL

AI & GenAI: LLM Integration (OpenAI API), Retrieval-Augmented Generation (RAG), Prompt Engineering, AI-Assisted Development

Testing & Tools: Playwright, Debugging, Git, GitHub, VS Code, Docker

Core Concepts: Data Structures & Algorithms (DSA), OOP, DBMS, DOM

WORK EXPERIENCE

Software Developer — Atom Plus

Jan. 2026 – Present

- Implemented user onboarding flow, streamlining setup and improving the overall product workflow.
- Debugged and resolved functional bugs across application workflows, improving stability, performance, and user experience.
- Used PostgreSQL, NestJS, Docker, and Playwright for backend workflows and testing while learning the application architecture end to end.
- Leveraged AI-assisted coding tools to accelerate feature development, debugging, and code reviews.

Full Stack Development Mentor Intern — Apna College

Sept. 2024 – Feb. 2025

- Mentored 1,000+ students in MERN stack (MongoDB, Express.js, React.js, Node.js) development, improving their coding proficiency and project-building skills.
- Debugged and troubleshoot JavaScript and React.js projects, helping students resolve application errors faster.
- Collaborated in a fast-paced startup environment, strengthening Git/GitHub workflows and communication through regular code reviews.

PROJECTS

AI-Powered Conversational Interface | React.js, Node.js, Express.js, MongoDB, OpenAI API | [Live](#) | [GitHub](#)

- Built a responsive AI assistant web app with React.js and REST API integration, delivering LLM-generated responses in under 5 seconds.
- Integrated the OpenAI API and Added chat history, AI-generated chat titles, conversation deletion, and new-conversation flows for a smooth user experience.

HavenSpot — Full Stack Travel Listing App | React.js, MUI, Bootstrap, Node.js, Express.js, MongoDB | [Live](#) | [GitHub](#)

- Developed a responsive full-stack MERN application managing 500+ user-generated travel listings across devices.
- Implemented end-to-end CRUD operations, user authentication (Passport Local Mongoose), and image uploads via the Cloudinary API.
- Built review/rating functionality and filtering that reduced search time by 90%, helping users quickly find relevant spots.

Portfolio Website | React.js, Responsive Web Design, Vercel | [Live Demo](#)

- Designed and launched a responsive React.js portfolio; built 15+ reusable components for scalability and UI consistency.
- Deployed on Vercel with a custom domain and optimized pages for fast loading.

EDUCATION

Master of Computer Applications (MCA), YMCA

CGPA: 8.5 | 2025 – Present

Bachelor of Computer Applications (BCA), YMCA

CGPA: 7.6 | 2022 – 2025

Higher Secondary (XII)

89% | 2021 – 2022

CERTIFICATIONS & ACHIEVEMENTS

DSA (Certified) | MERN Stack Developer (Certified) | IoT — NPTEL (Scored 84%)
